## SUMMARY

---

I am a passionate front-end developer with over 1.5 years of experience, specializing in crafting user-centric websites, e-commerce platforms, and applications. Proficient in CSS3, HTML, Typescript, JavaScript, React.js, Next.js, and related technologies, I am dedicated to expanding my skills in frontend development. Known for delivering responsive designs, customizing CSS themes, and collaborating effectively within dynamic teams. I stay updated with the latest trends, ensuring the relevance of my contributions. Experienced in large-scale multi-user services and creating commercial applications from scratch. Eager to contribute to innovative projects and further grow in web development.

## PROFESSIONAL EXPERIENCE

---

### Frontend Web Developer

#### IT Time Academy

2023-March / 2024-April

Worked for 1 year in an IT team, specializing in web application development and support. Responsibilities included enhancing digital presence and user engagement through the creation of business card websites, landing pages, and online stores. Developed responsive user interfaces to ensure seamless experiences across devices. Maintained robust codebases, conducted thorough code reviews, and provided mentorship to junior developers to uphold high standards of quality and efficiency. Implemented new features and promptly resolved technical issues to improve project functionality and user satisfaction.

#### LIMSA Company

2024-April / working...

Since joining LIMSA, I have worked as a frontend developer, focusing on the development and maintenance of user interfaces using React.js and Next.js. I have also created business card websites, landing pages, and online stores to enhance digital presence and facilitate user engagement, leveraging my expertise in UI/UX design.
